

To drill or not to drill

The Dental Department aboard USS Theodore Roosevelt (CVN 71) aids in maintaining the TR crew's fit fighting condition while deployed overseas. Dental officers and the hospitalmen of Dental are prepared to serve the crew with any needed dental assistance.

By John K. Hamilton

- 1.) Lt. Cmdr. David Jones performs a composite restoration on a patient in Dental.
- 2.) Jones prepares a patient for an operation.
- 3.) Information Systems Technician 2nd Class Chad Clary checks in with Hospitalman Kristen Shepherd for Clary's dental appointment.
- 4.) Shepherd inputs information from a dental record into an electronic filing system.
- 5.) Jones and Hospitalman 3rd Class Stephen Guralny perform a composite restoration operation on a patient in TR's Dental.
- 6.) Jones, with the assistance of Guralny, continue a composite restoration operation.
